N 2 Issues X

The screenshot shows a mobile application interface for managing a service named "Albi".

**Left Side Navigation Bar:**

- Profile icon: Albi (A person's face)
- Service thumbnail: Albi (Architectural building)
- Service name: Albi
- Service URL: albi.naflows.com
- Navigation items:
  - Overview (selected)
  - Settings
  - Users
  - Data Monitoring
  - Rights
  - Network
  - Safety
  - Logs
- Bottom navigation icons:
  - User profile
  - Logout
  - Search

**Top Header:**

Services > Albi > Data monitoring

**Main Content Area:**

## Data Monitoring

Monitor and analyze data related to your service for better insights and performance.

### Collected Data

Define what data your service will monitor from their user and collect from the NASS. [Learn more](#).

#### Collected Data Types

Icons representing various data types:

- @
- Address
- Billing
- Location
- Target
- Globe
- Code
- Link
- Shield
- Bar chart

[Set Data Collection Policies →](#)

### Data Monitoring

Monitor your service data and analytics in real-time.

## Service Settings

Adjust the settings and preferences for your service to optimize its performance.

### General Settings

**Enable Backups**  
Automatically back up your service data at regular intervals.

**Enable Public Registration**  
Allow users to register for this service without an invitation.

### Legal Settings

**Data Policy**  
Update your service's data retention policy to comply with legal requirements and inform your users.

**Service Terms**  
Review and update your service's terms of service to ensure clarity and legal compliance.

**Support Email**  
Set or update the support email address for your service to ensure users can reach out for assistance.

### Security Settings

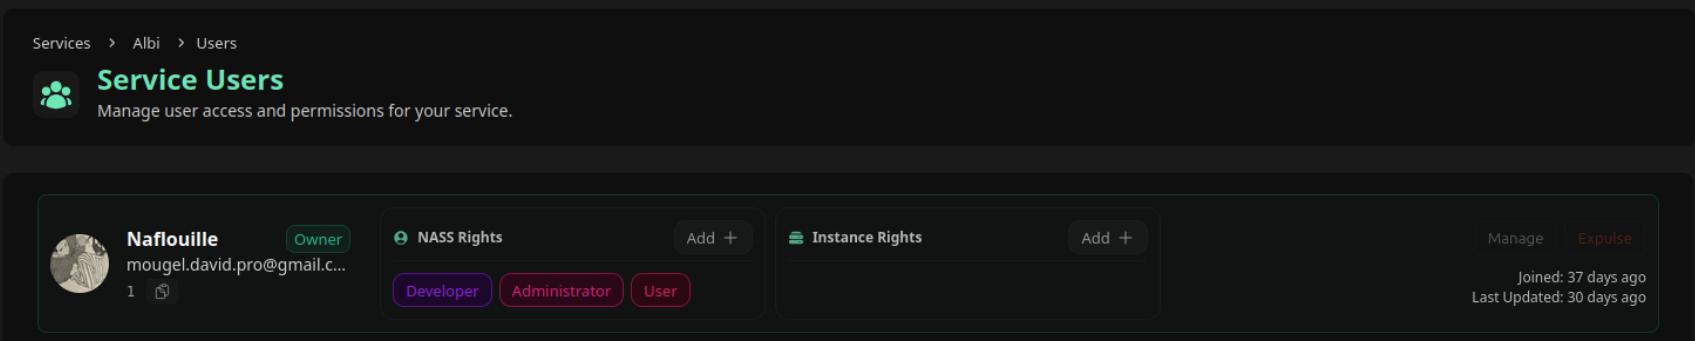

**Transfer Ownership**  
Transfer the ownership of this service to another user. Please proceed with caution as this action is irreversible.

**Delete Service**  
Permanently delete this service and all associated data. This action cannot be undone.
